Compatibility

With an estimated 50% of wash dry toilets provided under a DFG grant being used with a type of shower chair or assistive equipment, compatibility is essential.

This report looks at the wide range of equipment available on the healthcare market that works satisfactorily with the Geberit AquaClean Mera **Care** wash dry toilet.

Shower Chairs

Attendant or self propel, there is a wide range of upright shower chairs available from many manufacturers.

The Geberit AquaClean Mera CARE does not require an engineer to adjust, adapt or bypass functions to enable compatibility post installation

Watch the following video for more information relating to compatibility and necessary considerations when using a shower chair with a shower toilet.

Paediatrics

Paediatric equipment has rapidly improved in recent years, offering greater support and helping to promote independence in a safe environment

Osprey Healthcare, Freeway (Prism Medical), Rifton and R82 are some of the market leaders in Paediatric shower chairs.

Other more basic equipment is also available via some high street stores and internet sellers.

Freeway (Prism Medical)

T90 Paediatric Self Propel Shower Chair

Key Features

- 365MM seat width
- Available as assistant or self propelled models
- Integral horizontal push handled backrest
- Pan sliders attach to the frame and are easily removable without tools
- Supplied as standard with straight paediatric armrests and small horseshoe seat
- Different height armrest sockets
- Different positions for armrest sockets
- Clearance on this frame is now 475mm – Install Geberit @ 465mm

Freeway (Prism Medical)

T80 Paediatric Reclining Shower Chair

Key Features

- Easy to Tilt
- Removable Headrest
- Adjustable Footrest
- Freecote protective frame covering
- Wide range of positioning accessories

Jiraffe

HTS (Hygiene Toileting System) by Rifton

- Seat depth Adjustable

R82

Flamingo

Key Features

- Four different sizes
- Back angle adjustment
- Height adjustable
- Tilt in Space
- Adjustable footplates
- Side Supports
- Height Adjustable
- Head Support

Moorings Mediquip

Hoggi Sharky

Key Features

- 45° tilt for high safety
- Simple and practical use
- Very compact folding size (even with attached seat)
- Extremely slim, removable seat offers water-saving use in the bathtub
- Easy and comfortable height adjustment
- Various seat sizes

Argos / Amazon / Online

Children's toilet seat with step

Key Features

- Quick and affordable
- Overnight delivery
- Ideal for young children and individuals with Dwarfism
- Available in a wide range of colours

Tips

Rifton HTS & R82 Flamingo work best with seat up – contact Geberit area manager at time of install for guidance

Children's toilet seat with step – Install Geberit at 430mm

Install Geberit at 465mm for FreewayT80 Paediatric

All sizes of the Rifton HTS work over a Mera CARE

Do not use the Flamingo Hi – Low base with Mera CARE. Small seat base does not fit

Bariatrics

With an increase in awareness of the needs of larger people and the adaptations needed for existing equipment to support a much larger body weight there has never been such a greater focus. Equipment is now available to suit all Plus size, Mediatic and Bariatric users.

Equipment is now on the market capable of supporting users up to 85 stone.

Osprey Healthcare

The Java Bench

Key Features

- Choice of Toilet or Horseshoe seat
- Skirt Included for Geberit compatibility
- Safe working load of 85 stone
- Slight incline on the seat to aid with standing & comfort
- Also compatible with other wash/ dry and standard toilets
- 18, 20 or 22” seat height
- Choice of 2 leg styles, bolt down or rubber ferrules.
- 15 Year frame warranty

Freeway (Prism Medical)

Bariatric AUTO Static Bench

Key Features

- 55 Stone safe working load
- 19", 21", 23", 25", 27", 29" 31", 33" Seat Widths
- bespoke wider sizes if required.
- Seat types: Horseshoe or Aperture
- Removable Arms

Langhams

Gordon Ellis Seat & Frame Horse Shoe

Key Features

- Comfortable moulded plastic toilet seat
- Seat easily clips on and off the frame for cleaning
- 30 Stone weight limit

Langhams

Gordon Ellis Seat & Frame Full Aperture

Key Features

- Comfortable moulded plastic toilet seat
- Seat easily clips on and off the frame for cleaning
- 30 Stone weight limit

Aidapt Sussex Bariatric Commode

Key Features

- Vinyl padded over seat supplied for discreetness when not in use
- 7.5 litre commode bucket and lid provided as standard
- The Sussex commode ideal for users with limited mobility
- Can be used as a standalone commode or can be positioned over most WC suites
- Height adjustable legs and support arms as standard
- Maximum user weight limit 254kg (40 stones)

Tips

Removal of Seat gives better clearance for the “Shelf” and allows for full functional use of the wash and dry functions

Osprey seat height of 19” requires a Geberit seat height of 445mm.

Langham Multi frame also available with a big john seat attachment

Removal of toilet seat requires a free of charge visit from a Geberit area manager

Toilet Seat Raisers

Toilet seat raisers have been in circulation for many years and have become more popular in recent times due to an increase in manufacturers reducing cost.

Based on the principle actions of a riser recliner chair a seat raiser can help the user to go from sit to stand and vice versa with ease. For those with more complex needs a verticle lift option is also available.

Osprey Healthcare

The Osprey toilet Raiser

Key Features

- Installs Anywhere
- Free-standing unit fits over any toilet
- No assembly/tools required – simply unpack
- Comes with AC plug and rechargeable battery pack
- Easy to Use
- Height Adjustable
